

REMARKS/ARGUMENTS

Further to the Amendment filed on April 27, 2005, claims 32-36 are amended by the present amendment to each recite “the at least one stream data unit stores a second data unit including information of the transport stream *packet*” instead of “the at least one stream data unit stores a second data unit including information of the transport stream *pack*.” Applicants respectfully submit that support for amended claims 32-36 is self-evident from the originally-filed disclosure, including Figure 5 (“STREAM PACK”). Thus, no new subject matter is added by the present amendment.

For at least the reasons set forth in the April 27 Amendment, Applicants respectfully submit that amended claims 32-36 patentably define over the art of record. Consequently, in light of the above discussion and in view of the present amendment, the present application is believed to be in condition for allowance and an early and favorable action to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
